INDUNIV is a non-for-profit 501(c)(3) organization established in 1984 to promote and catalyze effective collaboration among academia, industry and government to stimulate knowledge base capabilities. Its vision aims towards making Puerto Rico the preferred location for new business opportunities and knowledge creation in the Life Sciences and allied Industries.

LIFE SCIENCE CATALYST

INDUNIV has sustained and strengthened Puerto Rico's position as one of the strongest Life Sciences Centers in the world for pharmaceutical, medical devices and biotechnology industries

As the industry continue to undergo profound technology transformation and increased connectivity, INDUNIV integrates industry, academia, and government to drive grow Puerto Rico's competitiveness in the biosciences by focusing on value creation of our engine of innovation being recognized as a global tech hub of advanced development and manufacturing.

PUERTO RICO SPARKS INNOVATION

Our Vision

Enhance Puerto Rico's status as the preferred location for new business opportunities through knowledge creation in the life sciences. Including pharmaceutical, biotechnology, medical devices, electronic health care and allied industries.

Our Mission

To develop the necessary strategies and action plans that promote the development of the knowledge economy through innovation. To solve technical and scientific problems with potential commercialization. Position PR as a global best practice location of choice for the life sciences enterprises through the industry, university, and government.
